Good afternoon, All

A quick note to update you'll on the Project CCS1 Ex. 9 Wells **Ex. 4 CBI** has been very beneficial in helping us outline and meet the criteria needed per your cross-walk tables. In the next couple of days, we will be loading text and illustrations into the confidential folder that Ken has set up for ARCO₂ AKA CapturePoint Solutions.

Ex. 4 CBI suggested we advise you of our progress. She noted that you all prefer an introductory presentation to go over the sequestration site's characterization for the Geoscience narrative, Cross-Discipline narrative and the Site Suitability narrative.

Please advise us on sometimes that work for you all and we will set up a Teams meeting. Thanks in advance.

Regards,
Keith
